

Product Summary - Death in Service Pension provided by Ellipse

What are registered death in service pensions?

Death in service pensions provide a regular income to financial dependents of an employee who dies whilst covered by the scheme. The financial dependant will receive a monthly income which will be payable for life if the dependant is the spouse/civil partner or adult dependant. If income is paid to a child payments will normally continue until they reach the age of 18 or 23 if in full time education.

The payments are usually paid directly to the dependant and are subject to income tax. There are usually no exclusions under the policy although there is a maximum total amount that may be paid to the Trustees if multiple deaths arise from the same cause. Employees cannot be covered under this policy beyond their 75th birthday.

The following is a high level outline of our death in service pension product (a benefit within a registered group life scheme). For full information please refer to the registered group life [technical guide](#) or [policy terms & conditions](#).

Opting out of Insurance Act 2015 – paying claims in full	<ul style="list-style-type: none"> The employer has a duty to make a fair presentation of the risk to us. If they do not fairly present the risk and we would have charged a higher premium (if we had known the omitted information) the Insurance Act 2015 allows us to proportionately reduce the claim amount (but not charge the higher premium). We believe it is fairer to contract out of this part of the Insurance Act 2015. By contracting out we can pay those claims in full, rather than proportionately, whilst charging the employer the correct higher premium (and apply any other different policy terms which we would have applied if we had known the information).
